AI-ASSISTED MEDICAL IMAGING REPORT

PATIENT INFORMATION

Patient Name: Test Patient JSON
Patient ID: 6a8fc5550b89dcefcfcd0313

REPORT METADATA

Report ID: 6A8FC5550B89DCEFCFCD0314
Date Created: 27/8/2026
Inference Model: YOLO11 — Bone Fracture Detector

1. RAW MEDICAL MODEL INFERENCE RESULTS

Disease Target: Bone Fracture
Finding Status: **Detected**
Model Architecture: YOLO11
Model Confidence: 71%

2. AI-GENERATED MEDICAL REPORT (NVIDIA Nemotron)

REPORT SUMMARY

This is a test summary.

FINDINGS INTERPRETATION

Disease Target: Bone Fracture (DETECTED)

Model Architecture: YOLO11
Model Name: YOLO11 — Bone Fracture Detector
Prediction Label: FRACTURE | Model Confidence: 71.26%

Interpretation: A cortical line discontinuity was highlighted.

OVERALL ASSESSMENT

Patient has signs consistent with a bone fracture.

RECOMMENDATIONS

- Refer to specialist

AI LIMITATIONS

- AI requires clinical review

IMPORTANT CLINICAL NOTICE & DISCLAIMER

This report is generated using artificial intelligence and is intended to assist qualified healthcare professionals. It does not constitute a definitive medical diagnosis and should not replace professional clinical evaluation.
